

Our energies for a Better Life

Pharmaceutical

Bouygues Energies & Services is a leading provider of turnkey design, build and facility management solutions, delivering fast track, fully licensed and accredited facilities to stringent cGMP regulations.

Our expert understanding of primary and secondary pharmaceutical [processes](#) [1], coupled with our unique in-house [multi-disciplinary](#) [2] capabilities, provides a platform for the delivery of [state of the art](#) [3], fully-integrated **project-lifecycle solutions**. We manage projects with the most technically challenging standards, from concept to realisation.

We have a proven track record in the expert translation of our clients' specific needs into value-driven, flexible facilities, both within the **private** and the **public sector** as part of wider PFI and P21 programmes:

- Public
- Private
- Primary
- Secondary
- Sterile & non-sterile
- Aseptic
- CSSD's pharmacies
- Cytotoxics
- Stem cell
- Blood & tissue processing
- Regenerative medicine
